

Five Lessons from Lockdown

This week for our family service, instead of having a sermon, some of our Gateway kids were interviewed about how they were finding lockdown and their experience of God in it.

Five lessons were highlighted from the interviews:

1. Be honest (with God and others)
2. Cultivate gratitude
3. Keep meeting together
4. Keep praying
5. Listen to God

Questions

1. How do you process your feelings when you're struggling/finding things hard? Do you find it easy to bring them to God/share them with other people?
2. What are some things you're thankful to God for at the moment? How can we grow in having a grateful attitude each day?
3. What are you finding hard about meeting with each other at the moment? What's been good? Is there anything you'd like to do better?
4. When/how do you most commonly hear God speaking to you? What has He been saying to you recently?
